

Aunt Jenny's Favorite Recipes

HOW DID YOU EVER DECIDE WHAT RECIPES TO PUT IN THIS BOOK OF YOURS, JENNY? WHY, YOU MUST KNOW THOUSANDS!

WELL, CALVIN, I KNEW FOLKS WOULD WANT RECEIPTS FOR EVERY DAY—NOT TOO FUSSY OR HARD ON THE POCKETBOOK, BUT GOOD-TASTIN'. THESE SURE ARE—AN' SO DIGESTIBLE EVEN A CHILD CAN EAT 'EM, FOR THEY'RE ALL MADE THE Spry WAY

DELICIOUS ECONOMICAL
AND EASY TO MAKE
WITH THE PURER ALL-
VEGETABLE SHORTENING

Spry

IT'S TRIPLE
CREAMED!

SAY, ONCE YOU'VE
USED SPRY, OLD-TIME
SHORTENIN'S SEEM AS
OUT OF DATE AS THE
DRESS I WORE WHEN
I MARRIED CALVIN. THAT
WAS 30 YEARS AGO
HERE'S HOW WE
LOOKED ON OUR
HONEYMOON

And How Calvin loves my Spry Cookin'!

Good-tastin' food makes a heap of difference to *any* family, doesn't it, ladies? And that's why you'll set such a store by Spry. It makes everythin' taste *so grand*. Whether you're a brand-new bride or an old hand at cookin' you'll be surprised how delicate Spry makes *all* your cakes, pies, and fried foods.

What's more, everythin' you make the Spry way digests so easy and tastes so good. Take my husband, Calvin. Since I've been doin' all my bakin' and fryin' with Spry, he's just about eatin' me out of house and home.

Then take the receipts in this book. They're so thrifty and dependable you're bound to like 'em. Why every single one has been tested over and over in the Spry Kitchen. Follow 'em carefully — that's what I mean when I tell you to cook the Spry way.

So get a can of Spry *today*. See how soft and creamy — how smooth and white it is! You'll say Spry blends with other ingredients faster 'n you can say "Jack Robinson!" Why it takes only a jiffy to mix cakes and pie crust with Spry. And this all-vegetable shortenin' keeps sweet and fresh right on my kitchen shelf. You owe it to yourselves, ladies, to try Spry *now*. Better ask for the thrifty three-pound can — it gives you more for your money.

US LADIES IN THE SEWIN' CIRCLE GOT TALKIN' 'BOUT SPRY THE OTHER DAY AN' HOW IT MAKES OUR COOKIN' GO EASIER AN' TASTE BETTER—SO I THOUGHT I'D PASS SOME OF THEIR TIPS ON TO YOU

Cakes so light, velvety, delicate!

“Why you could have knocked me over with a feather the first cake I made with Spry,” says Sarah Garland (her husband’s principal down at the High School). “For years I’d thought there was only one shortenin’ for cakes. But Spry gives *such* light, fine, delicate-flavored cakes and think how much easier on your budget than if you’d used more expensive cake shortenin’. Spry’s so smooth and so marvelously creamy it mixes in a jiffy.”

What flaky, tender pastry!

And then that little bride up our street spoke up real proud-like: “Bill says my pie crust made the Spry way is so flaky and tender it melts in his mouth. And it’s easy to digest as plain bread. No bother to make either, even for a greenhorn like me. Spry cuts into the flour quick as can be. And just think, you don’t even have to chill your ingredients!”

Foods fried the Spry way are crisper and so digestible!

But say, when it comes to fryin’, I could tell as much as any of ’em! Since I been fryin’ the Spry way, you should see all the doughnuts, French fries, and fried chicken my husband, Calvin, stows away! And they’re so good for him. Best of all, there’s no pesky fryin’ smell an’ smoke when you fry with Spry. It’s purer. So no wonder you get better-tastin’ baked foods, too.

Spry Pastry Mix

So quick and easy to
use! Just add water
and mix.

SIFT flour and salt together into a large bowl. . . . Add 1 pound Spry to flour and cut in until mixture is as fine as meal. . . . Add remaining 1 pound Spry and continue cutting until particles are size of a navy bean. . . . Put Spry Pastry Mix in a covered container and store on the pantry shelf or in the cupboard for use as needed. Do not keep Spry Pastry Mix in the refrigerator — it will keep sweet and fresh at room temperature.

3½ pounds (14 cups
sifted) all-
purpose flour
2 tablespoons salt
2 pounds (4½ cups)
Spry

*This recipe makes
enough Spry Pastry Mix
for about a dozen large,
tender, flaky pies.*

Uses for Left-over Pastry

I use my pie-dough
scraps for makin'
these "little pies." My
grandchildren are al-
ways beggin' for 'em.

Old-time Jelly Tarts

Roll dough ⅛-inch thick and cut with cookie cutter. In ½ of the circles cut 2 or 3 small holes with thimble. Bake in very hot oven (450°F.) 5 to 10 minutes. Cool. Put plain and perforated pastry circles together in pairs with jelly between.

Stacked Pies

Spread 5-inch baked circles of pas-
try with apple butter and put lightly
together in stacks of three.

Sugar Snails

Roll dough ⅛-inch thick. Sprinkle with mixture of sugar and cinnamon or sugar rubbed with a little grated lemon rind. Roll like jelly roll and cut in thin slices. Bake in hot oven (425°F.) 5 to 10 minutes.

Sugar Pies

Roll dough ⅛-inch thick and cut in 7-inch circle. Spread liberally with brown sugar to within ½-inch of edge and dot with butter. Fold edge over sugar and press down. Bake in hot oven (425°F.) 5 to 10 minutes.

SO MANY LADIES ASKED ME HOW I MAKE TENDER, FLAKY, DIGESTIBLE PIE CRUST THAT I'M SHOWIN' HOW HERE. IT'S EASY AS ROLLIN' OFF A LOG IF YOU USE SPRY AN' DO IT THIS WAY...

Cut in First Half of Spry Finely
Add Spry to sifted flour and salt in two portions. Cut in the first half until mixture is as fine as meal. This makes the pastry extra *tender*.

Cut in Other Half of Spry Coarsely
Add the remaining half of the Spry and continue cutting, leaving larger pieces about the size of navy beans. This makes the pastry extra *flaky*.

Now Add Cold Water Sparingly
Sprinkle water over flour-Spry mixture gradually, mixing lightly with a fork. Add only enough to make a dough that "cleans the bowl."

Seal Fruit Pies to Keep in Juices
Trim undercrust even with edge of pan. Cut top crust $\frac{1}{4}$ -inch larger and fold it under the bottom crust. Press together with tines of a fork.

Look sharp at these pictures, ladies — you'll get some pointers on makin' the pies and tarts on the followin' pages.

This picture at the left shows a dandy way to keep fruit pies like Cherry Pie and Blueberry Pie (page 5) from boilin' over.

GRANDPA BRIGGS UP AT THE OLD SOLDIERS' HOME SAYS HE'LL EAT ANY KIND OF PIE YOU GIVE HIM JUST SO LONG AS IT'S APPLE. I GUESS SOME OF YOUR MEN FOLKS FEEL THE SAME SO I'M DEVOTIN' THIS WHOLE PAGE TO
APPLE PIES

Pie Crust

2 $\frac{1}{4}$ cups sifted all-purpose flour
1 teaspoon salt

$\frac{3}{4}$ cup Spry
5 tablespoons cold water (about)

SIFT flour and salt together. . . . Add $\frac{1}{2}$ of Spry to flour. Cut in with pastry blender or two knives until mixture is as fine as meal. With a fork, work lightly together until all particles are moistened and in small lumps. Add just enough water to moisten. Press dampened particles together into a ball and work lightly into a smooth blended dough. Do not handle dough any more than necessary. . . . Makes 1 two-crust 9-inch pie.

To make a two-crust pie with Spry Pastry Mix, use 3 cups of the Mix (page 2).

Yellow Peach Pie

I use this receipt for makin' fruit pies all winter long.

Blueberry Nectar Pie

Calvin says nectar means "food for the gods." And this pie is!

Fresh Cherry Pie

Tasty, tart - sweet cherry fillin' set off by tender, flaky crust.

Colonial Pumpkin Pie

You'll like the spicy brown richness of this fillin'. And it's so easy to make!

Let The Dough Relax in Pan
After rolling the dough and pricking it all over with a fork, fit dough gently into the pan and let relax 5 minutes. This helps to keep the pastry from shrinking.

Pat Out Air with Ball of Dough
Pat pastry with ball of dough, working outward from center. This forces out air and helps to make a pie shell that will not puff out of shape during the baking.

Make A Little Wall All Around
After cutting pastry 1-inch larger than pan, turn dough back even with rim to make a standup "collar." Then crimp evenly with finger tips into a fluted rim.

ANY KIND OF FROSTIN' OR FILLIN' YOU

Blending Flavors

Blend Spry with salt and flavoring (extracts, spices, etc.). Spry blends flavors perfectly — distributes them evenly.

Thorough Creaming

Add sugar to Spry gradually, creaming until mixture is fluffy and light. See how *quickly* Spry creams — and how *easily*.

Remember Sifting

Be sure to sift flour once before measuring. Flour packs on standing, and if not sifted, gives an over-measurement.

Mixing Carefully

Add sifted dry ingredients in quarters — liquid in thirds — starting with flour. Mix until smooth after each addition.

EASY NOW TO GET YOUR
FRENCH FRIES TO THE TABLE
CRISP AN' PIPIN' HOT

They're So Digestible Fried in Spry!

Remember, Ladies!

"*Blanchin'*" means fryin' your potatoes first in Spry at a temperature of 370°F. till tender and just *start-in'* to brown. (It's handy to do this hours ahead of dinner time.) Then just before dinner, *brown 'em* quick in real hot Spry (390°F.). Takes only a jiffy for several helpin's and they're all so hot and crisp!

French Fried Potatoes

Just try this handy *blanchin'* and *brownin'* way and you'll be treatin' your folks to French fries often.

Blanching — 370°F. — 5 to 7 minutes per basket. . . . Heat Spry to 370°F. Lower $\frac{1}{3}$ of potatoes in basket into deep hot Spry. Fry until potatoes are tender but not brown (5 to 7 minutes). Drain on absorbent paper. Blanch remaining 2 lots in same manner and hold until nearly serving time.

Browning — 390°F. — 1 to 1½ minutes per basket. This is the last short step and should be done at serving time. . . . Lower $\frac{1}{2}$ of blanched potatoes in basket into Spry which has been reheated to 390°F. Fry until potatoes are crisp and brown (1 to 1½ minutes). Brown remaining half in same manner. Drain on absorbent paper, sprinkle with salt, and serve immediately. . . . Serves 6.

If a single frying period is used, fry potatoes at 385°F. until tender and brown (about 20 minutes).

6 large potatoes,
washed, pared,
and cut in
lengthwise
strips,
2½x¾ inches.
Dry thoroughly.
Divide into 3 lots.
(If desired, the
potatoes can be
soaked 1 hour in
ice water and
then dried thor-
oughly between
towels.)

2 to 3 pounds Spry

*No unpleasant
smoke or odor when
you fry with Spry.*

AND, MY, ISN'T IT A COMFORT
NOT TO HAVE YOUR KITCHEN
FULL OF SMOKE WHEN YOU FRY

Before I used Spry, I never thought of fryin' when I had company — smoked and smelled up the house so. Calvin hated fryin' odor, too. But now he doesn't know I've been fryin' till he sets down to the table!

And take my word for it, ladies, foods fried the Spry way are crispy and tasty and so digestible a child can eat 'em. They're never heavy or greasy.

If some of you ladies don't have fryin' thermometers, just drop a cube of stale bread into the fat. If it turns a nice golden brown in 1 minute, the temperature's about right for most fryin'. Or, you can use some of the food you're goin' to fry. Say you're fryin' doughnuts — drop in a little doughnut "center" and if it browns in 1 minute, the temperature of the fat's about right for fryin' your doughnuts.

Save your Spry for another fryin'

After fryin', just let the hot fat cool a little, then strain it through several layers of cheesecloth in a strainer into an empty Spry can. Cover, and keep on the shelf (it doesn't need refrigeratin'). Spry is so pure you can fry with it over and over! Now isn't that a real savin'?

Roll each ball in cornflakes. . . . Fry in deep hot Spry (375°F.) 5 minutes. Drain on absorbent paper. . . . Serves 6.

Potato Puffs. Omit mustard, ham, and cheese. Shape potato mixture into small balls, roll in crushed cornflakes, and fry as above.

chopped

DRY potatoes thoroughly and fry in deep hot Spry (380°F.) about 5 minutes, or until brown. Drain on absorbent paper. . . . Cook onion in $1\frac{1}{2}$ tablespoons Spry in skillet 3 minutes. Remove onion and add pimientos. . . . Add fried potato cubes and salt and stir carefully, mixing well. . . . Sprinkle with chopped parsley and serve at once. . . . Serves 6. - ⅛ teaspoon salt
- ¾ cup sugar
- 2 tablespoons flour
- 2 egg yolks
- 1 cup milk

- 2 egg whites, stiffly beaten

When baked, the pudding is a delicate sponge on top and a yellow-gold sauce underneath.

Lemon Dainty

The most refreshing dessert I know.

MRS. CALVIN WHEELER

Maybe I mentioned it before,
but I want to say over again,
so that everybody gets it,
how easy to digest foods
cooked the Spry way are

Grandpa Briggs at the Old Soldiers' Home eats pies and doughnuts and fried foods aplenty. Mrs. Thompson, the matron, uses Spry for everythin'.

Beside tastin' *extra-good*, foods made the Spry way sure set easy on the stomach! Take cakes and biscuits — they're so much lighter and finer. Same with pie crust — it's so flaky and tender, so crisp and delicate. No wonder it digests as easy as plain bread!

And you'll notice such a difference with fried foods! Fact is, foods fried proper in Spry are as digestible as if baked. Here's why: Spry is sweet and pure — doesn't break down in

fryin'. It forms a crisp, golden crust that seals in flavor and prevents foods from becoming heavy and greasy.

New Handy Hinged-Top Can

You'll love Spry's handy, new, hinged-top can. It's so convenient. You can open and close it in a jiffy with just a flick of the wrist. And the lid never gets lost or falls on the floor. Get the thrifty 3-pound or the big family-size 6-pound can.

My grandson, Tommy, tuckin' away doughnuts made the Spry way. They're so light and digestible a child can eat 'em.
